Technical data

Size (DN)	DN 10—50 (1/4" - 2")
Pressure rating	UNI/DIN PN16-100, ANSI 150-600#
Connections	Flanges UNI PN16-100; Flanges ANSI 150-600# Threaded G, NPT; Welded BW, SW; Clamp
Type sealing	Soft (Class VI), metallic (Class IV - V - VI)
Characteristic	Equalpercentage (eqp%)
Action	Pneumatic with diaphragm (supply max 3 bar)
Temperature	-196 to +350 °C

Description

Burocco Series 3000 "low flow" control valves are designed for precise controlling. The body is manufactured from bar stock stainless steel or special alloys and is easily adapted to meet application requirements. Cryogenic, high temperature or bellows sealed designs are available and can be delivered with very short delivery times. All Burocco valves are delivered as tested units and ready for a long lasting, maintenance free operation.

Low Cv values down to 0.01 with reproducible trim characteristics.

Options

- ⇒ Characteristic linear
- ⇒ High temperature extension (lined bonnet)
- ⇒ Extension (- 100°C)
- ⇒ Cryogenic extension (- 196 °C)
- ⇒ Bellows seal (double wall PN16, triple wall PN40)
- ⇒ Full stainless steel actuator for corrosive environment
- ⇒ 3-way (mixing or diverting) valves (see brochure 3003)
- ⇒ Special alloys for body: Hastelloy, Duplex, Monel
- ⇒ Special rating PN160/250
- ⇒ Stroke limiter
- ⇒ Handwheel for emergency operation
- ⇒ Valve positioners
- ⇒ Limit switches
- ⇒ Position feedback
- ⇒ Airset
- ⇒ Electric linear actuators (230 V AC, 24 V AC/DC)
- ⇒ Hand operating (manual)
- ⇒ Pneumatic with piston actuator (service ON/OFF)
