

RK-NEEDLE VALVE

NVK-HP, DN4 - DN10, PN315

High pressure needle valve
with clamping ring connection
face to face acc. to producers standard

Specification:

High pressure needle valve with clamping ring connection PN 315, body made of acid resistance forged steel (1.4571), metal tight conical globe, metal resealing, anti blow out spindle, spindle thread outside located, re-tightened stuffing box, stuffing box material KF or graphite, design free of non ferrous metals.

Marking: RK-Needle valve

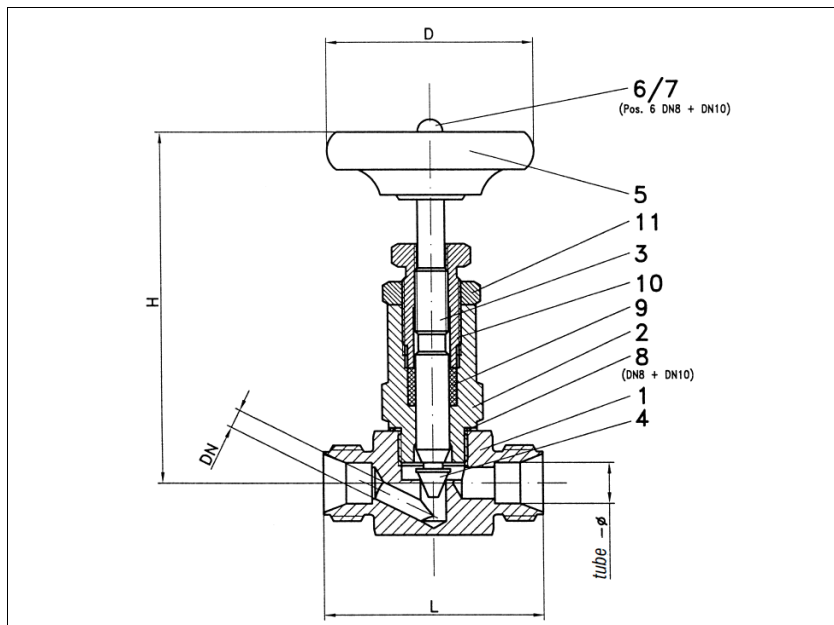

Type: NVK-HP-1.4571

Dimensions

DN	PN	tube-Ø	dimensions in mm		
			L	H	D
4	315	6	55	84	50
5	315	8			
6	315	10			
6	315	12	80	87	63
8	315	15			
10	315	18			

Ordering example:

NVK-HP-1.4571-Graphite, DN8, PN315

No.	Part	Material 1.4571-KF	Material 1.4571-Graphite
1	body	1.4571	1.4571
2	bonnet	1.4571	1.4571
3	spindle	1.4571	1.4571
4	globe	1.4571	1.4571
5	hand wheel	synthetic FS31	synthetic FS31
6	washer	1.4571	1.4571
