

KLINGER®

Type: Proball 305, Full bore

KLINGER
India

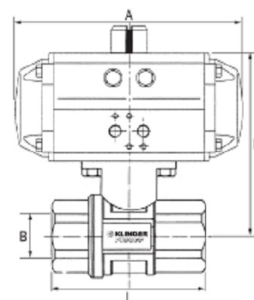

Pneumatic actuation of KLINGER 2-way ball valves

Ball valve mounted directly with the pneumatic actuator Application: Automatic processing plants

- » Moving parts are encapsulated
- » Inspection holes in the stem neck
- » All ball valves are supplied assembled and function-tested

General data

Type:	Proball 305, Full bore APD double-acting (air/air) APE single-acting (air/spring return) See separate data sheets for technical specifications
Setting data:	6 bar control air / Media: water 20°C / dP 20 bar
Options:	w/ switch box - open/close position w/ Solenoid valve w/ V-port ball and positioner w/ stem extension at high media temperatures

Double acting actuator

Type AC-305 with double acting actuator type AP

DN	APD TYPE	APD ITEM NO.
8 (1/4")	042	40707124
10 (3/8")	042	40707124
15 (1/2")	042	40707124
20 (3/4")	042	40707124
25 (1")	050	40707024
32 (1.1/4")	050	40707024
40 (1.1/2")	063	40707034
50 (2")	063	40707034
65 (2.1/2")	075	40707046
80 (3")	100	40707107
100 (4")	115	40707116

Single acting actuator

Type AC-305 with single acting (spring close) actuator type AP

DN	APE TYPE	APE ITEM NO.
8 (1/4")	042	40707119
10 (3/8")	042	40707119
15 (1/2")	063	40707134
20 (3/4")	063	40707134
25 (1")	063	40707132
32 (1.1/4")	075	40707578
40 (1.1/2")	085	40707585

Type AC-305 with single acting (spring close) actuator type AP

DN	APE TYPE	APE ITEM NO.
50 (2")	085	40707585
65 (2.1/2")	115	40705114
80 (3")	145*	40708596
